

LANADOL

The Original in Wet Cleaning

LANADOL wet cleaning's two systems are all you need for complete textile care. With LANADOL DRY and LANADOL SENSITIVE, Kreussler offers the complete solution for your operation: Clean, dry, and finish even the most delicate textiles in less than 45 minutes while protecting fibers and colors.

LANADOL SENSITIVE

Maximum Protection for Delicate Textiles

Delicate fabrics and fine garments such as silk dresses or high-quality wool suits require special care to avoid shrinking, discoloration, or felting. Kreussler, originators of the wet cleaning process, have used their know-how and experience to create LANADOL SENSITIVE, the optimal alternative to dry cleaning.

LANADOL SENSITIVE offers:

- Exceptionally gentle cleaning program (cleaning time 20 minutes)
- Short drying times (3 minutes) with residual moisture monitoring, followed by finishing and air drying
- Maximum protection against shrinkage, felting, and discoloration
- Professional finishing to ensure excellent fabric feel

LANADOL DRY

Increased Productivity at Reduced Cost

Since wet cleaning was invented by Kreussler more than 20 years ago, the variety of washable textiles has grown steadily. Today, even the most delicate fabrics and formal garments can be cleaned in water, making LANADOL DRY a universal solution for cleaning and drying.

When you choose LANADOL DRY, you're choosing:

- Increased economic efficiency for 90-95% of textiles
- Dry-to-dry application
- Quick procedures: textiles can be processed IMMEDIATELY after drying
- Fast, easy finishing

Environmentally-Friendly Care

Since LANADOL wet cleaning relies on the cleaning power of water, mild surfactants, and protective substances, it is not subject to environmental restrictions and can be installed quickly, cost-effectively, and without concerns over landlords or regulatory agencies.

- 100% solvent free
- Meets all the requirements for the environment token "Blue Angel"
- No phosphates, optical brighteners, EDTA and musk fragrances
- Tested "very good" by dermatologists

The Quality of LANADOL Your Investment in the Future

From cleaning to energy savings, LANADOL wet cleaning products and procedures also offer a number of benefits:

- Superb cleanliness and brilliant colors at a cleaning temperature of only 68°F
- Maximum protection against shrinkage, felting and discoloration
- Excellent handle and shape retention of the textiles
- Brilliant colors, fresh, clean smell and excellent wear comfort
- Increased economic efficiency due to short batch times of 20 minutes
- Low consumption of water, energy, and chemicals

Excellent Quality That Saves You Money

LANADOL wet cleaning is one of the most competitive systems on the market, reducing cost factors such as water and energy consumption, duration, and usage of chemicals just like all other Kreussler products. For more than 100 years, Kreussler has treated each customer as distinct, offering individual advice and service as needed. We have therefore developed a broad range of products and services that comply with your unique hygienic and operational requirements and considers the specific demands of your customers.

AVANT

LANADOL AVANT is a brushing agent for the manual treatment of extremely dirty garments. Cold-active enzymes and a surfactant formulation that has been optimized for degreasing ensure perfect removal of food residues, skin fats, and makeup stains.

AKTIV

LANADOL AKTIV acts with a formulation of mild surfactants that has been adapted to offer exceptional color and fiber protection as well as gentle care of wool, silk, and other delicate textiles.

APRET

LANADOL APRET offers fiber protection of sensitive textiles during the drying process, facilitates finishing, and gives the outerwear a pleasant handle.

LICKER

LANADOL LICKER has been developed for the wet cleaning of leather and furs and is added to the finishing bath. The product makes wet cleaned leather very supple and has a profound re-oiling effect. The colors of the treated leather appear rich and full.

Wet Cleaning with LANADOL Washing with ESDOGEN

The Best Solution for Everything

Kreussler is an innovator of washing products and services that meet all the requirements of professional textile cleaning. LANADOL products have been designed for the special requirements of wet cleaning and are fundamentally different from "normal" detergents and can be combined with simple washing procedures. For textiles with the care label "wash" we recommend our ESDOGEN range of liquid detergents.

In connection with the appropriate machine technology – dosing equipment with four pumps as well as all the necessary wet cleaning and washing programs – you can combine LANADOL and ESDOGEN products to cover the entire range of modern textile care services within an operation.

All-Around Service Achieving More Together

Kreussler's support goes beyond excellent products and procedures. You'll enjoy the support of our team of experienced applications engineers and network of trade partners in your area, chosen for their quick deliveries and exceptional service. Our applications specialists can install LANADOL wet cleaning procedures in any wet cleaning machine or drier available in the market. During initial installation and subsequent service calls you'll receive individual training, advice, and support – from machine setup and procedures through optimization of the operating processes to personnel training.

KREUSSLER is a family owned and operated company with more than 100 years of experience in textile care and continues to develop innovative solutions. As pioneers that are constantly looking for environmentally friendly care solutions, we invented the wet cleaning procedures and corresponding products more than 20 years ago.
